Endpoint Analysis

ENDPOINT ANALYSIS

Source file : server_logs.csv
Total Endpoints Analyzed: 17

SLOWEST ENDPOINTS

endpoint	avg_response_time
/api/payment/process	1497.260697
/api/products/search	983.975410
/api/checkout	951.659405
/api/products/details	529.016257
/api/login	414.063671

△ENDPOINTS WITH MAXIMUM ERROR COUNT

endpoint	error_count
/static/js/app.js	154
/metrics	151
/api/cart/remove	145
/api/users/profile	145
/api/cart/add	141

TOTAL TRAFFIC DISTRIBUTION

endpoint	total_requests
/health	579
/static/css/main.css	562
/api/cart/remove	561
/metrics	561
/api/login	553
/api/dashboard	551
/static/images/logo.png	547
/api/products/details	545
/api/checkout	538

ANALYSIS REPORT

/api/logout	537
/api/users/profile	537
/api/products/search	536
/static/js/app.js	531
/api/settings	524
/api/orders/history	513
/api/cart/add	507
/api/payment/process	502

The endpoint which consumes max_bandwidth is /static/css/main.css consuming 145667185 bytes

Percentage API requests = 69.73 %

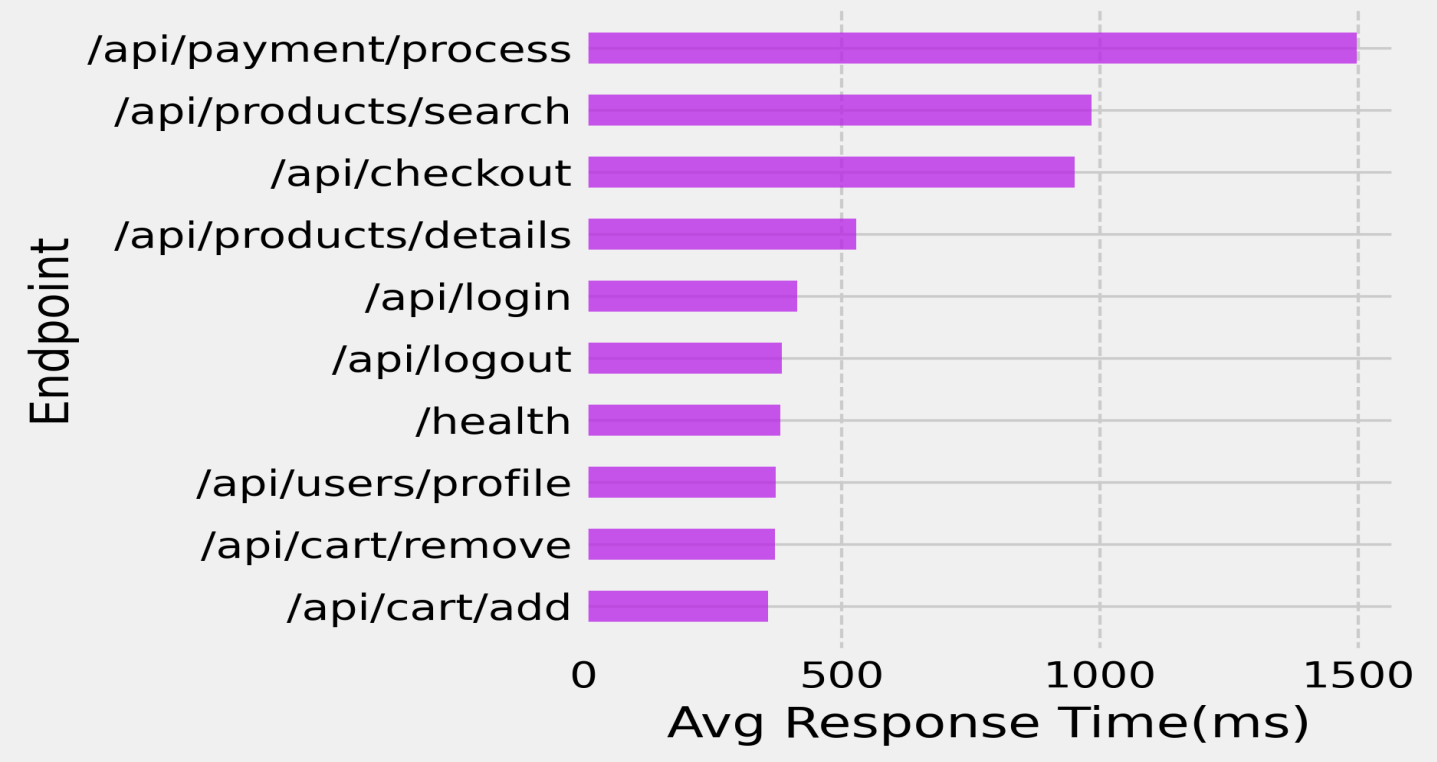

Percentage STATIC requests = 17.86 %

HOURLY ANALYSIS

=====

Source file : server_logs.csv

=====

The Hour which has Maximum Traffic is 12:00 (24 hr format)

PEAK HOURS

hour	total_requests
9	641
10	634
11	602
12	648
13	593
14	621
15	583
16	623
17	602

OFF-PEAK HOURS

hour	total_requests
0	251
1	270
2	256
3	265
4	227
5	220
6	209
7	226
8	240
18	240
19	255
20	242
21	263
22	228

ANALYSIS REPORT

23 245

The Maximum of Average Response Time is 0.80 seconds

Average Success Rate during Peak Hours is 76.46 %
Average Success rate during Off-Peak Hours is 76.15 %

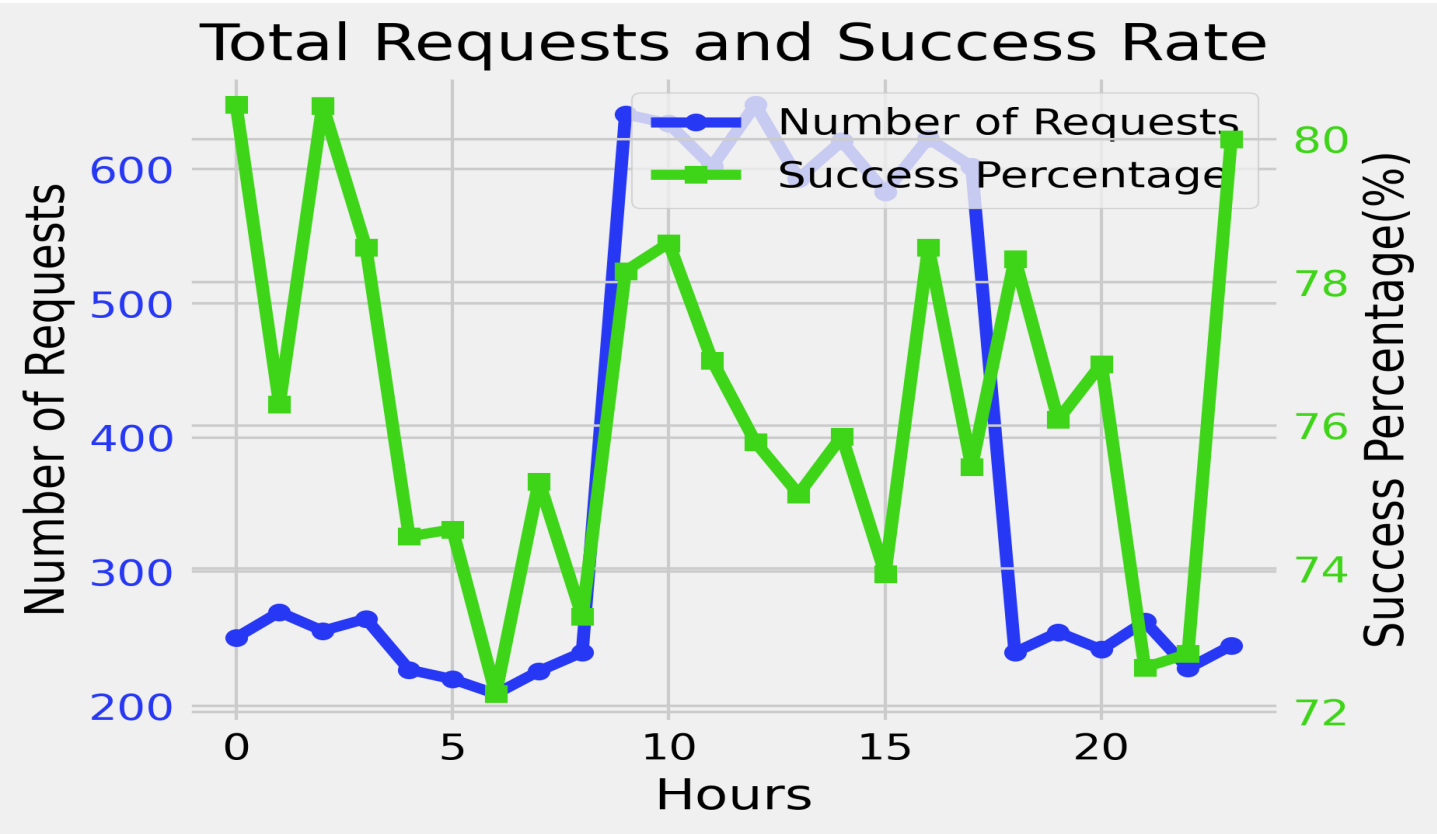

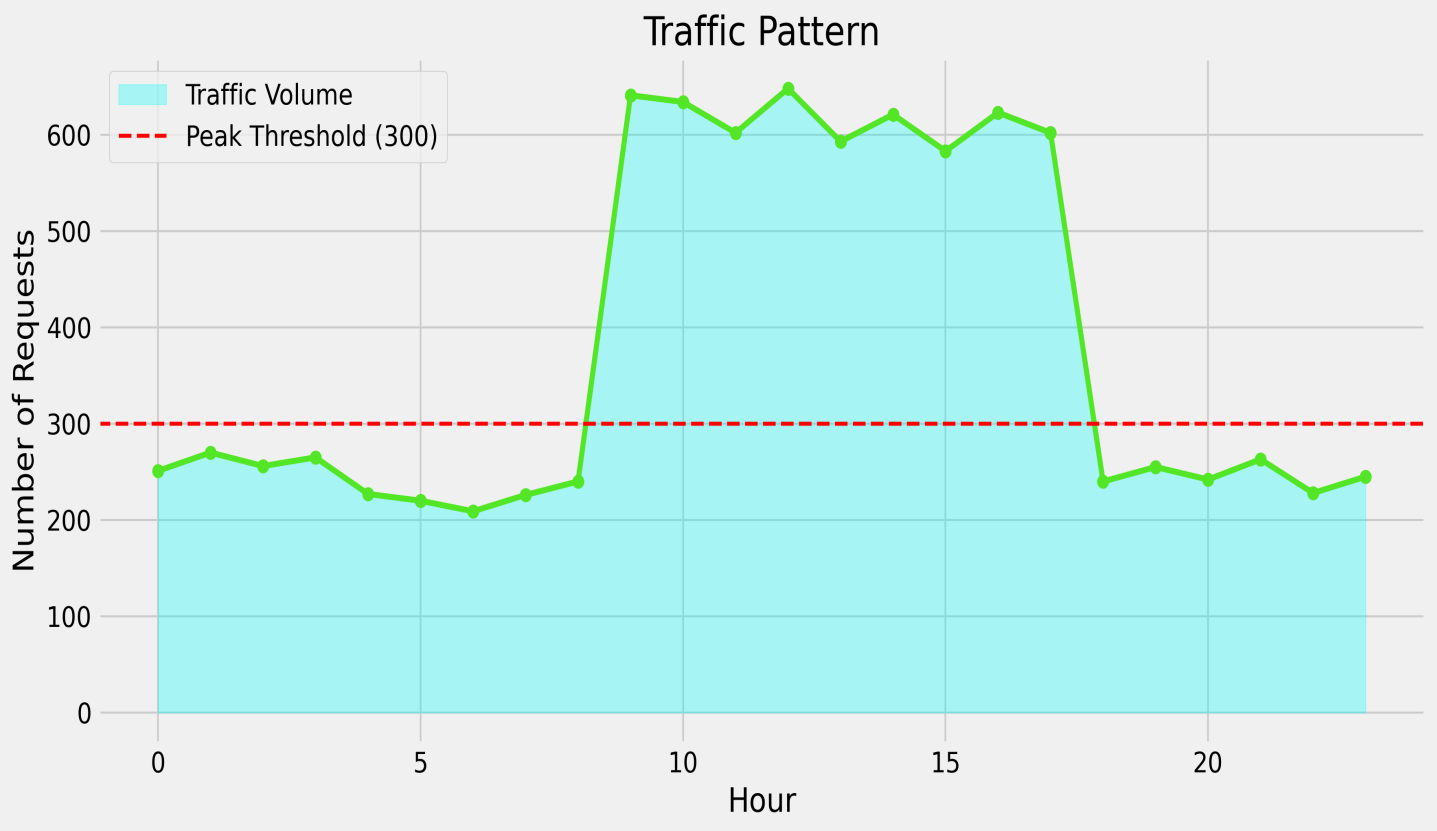

△Hours with Unusally High Errors

hour	error_count
9	140
10	136
11	139
12	157
13	148
14	150
15	152
16	134
17	148

HTTP Methods

METHOD ANALYSIS

Source file : server_logs.csv

Total Methods Analyzed: 5

PERCENTAGE DISTRIBUTION OF HTTP METHODS

method	total_requests	percent
DELETE	760	8.28
GET	5409	58.90
PATCH	82	0.89
POST	2608	28.40
PUT	325	3.54

The Slowest Method is POST with Average Response Time = 729.53 ms

△The Maximum Error Method is GET with Error Count = 1373

DISTRIBUTION of DATA SHARED AMONG METHODS

method	total_bytes_shared	percent
DELETE	2994960	0.66
GET	440508299	96.72
PATCH	328461	0.07
POST	10377666	2.28
PUT	1235799	0.27

Average response time of POST method is : 729.53 ms

Average response time of GET method is : 361.13 ms

CONCLUSION : POST methods are slower
